Superintendent's Report

To the School Board of Milton:

GENTLEMEN:—In my first report as superintendent of your schools it was possible to discuss general matters only, since the report was made in the middle of the school year. In this, my second annual report, I shall give the statistics of the schools for the year ending Aug. 31, 1920. I shall also take up several matters; some of which belong to that year and others, to the present school year.

The following table should be given careful inspection:

Statistics for the Year Ending August 31, 1920

| School | Teacher | Total No. Enrolled | Ave. Membership | Per Cent. of Attendance | No. of Tardinesses | No. Weeks Session |
|---------------------------|------------------------|--------------------|-----------------|-------------------------|--------------------|-------------------|
| Milton Grammar 1 & 2 | Laura H. Williams | 44 | 34 | 88 | 78 | 36 |
| " " 3 & 4 | Helen F. Hayes | 44 | 37 | 92 | 25 | 36 |
| " " 5 & 6 | Marion I. Dickson | 38 | 34 | 91 | 47 | 36 |
| " " 7 & 8 | Sara A. Lucas | 36 | 31 | 94 | 27 | 36 |
| Milton Mills Grammar | Marion E. Ames | 18 | 16 | 94 | 65 | 36 |
| Milton Mills Intermediate | Margaret Wentworth | 18 | 16 | 94 | 94 | 36 |
| Milton Mills Primary | Jessie R. Daughenbaugh | 18 | 16 | 88 | 70 | 36 |
| South Milton | Ferne C. McGregor | 7 | 6 | 93 | 2 | 36 |
| Nute Ridge | Georgia A. Wentworth | 6 | 5 | 97 | 0 | 36 |
| Hare Road | Lizzie M. Drew | 18 | 18 | 84 | 7 | 33 |
| Average totals | | 247 | 213 | 91 | 415 | 35.7 |

From this table it will be seen that the per cent. of attendance of all the schools for the year was 91. The average for the whole state was 92. We were, therefore, a little under the average for the state.

It will also be seen by this table that the number of instances of tardiness was excessive and unreasonable. The village schools were the worst offenders in this respect. I do not know of any agreeable and satisfactory way of securing regular and prompt attendance except through co-operation between teachers and parents. If all parents would assume the duty, which without question belongs to them, of seeing to it that their children are at school promptly on every day that it is possible for them to be there, we should have no need of attendance officers. Any parent who persistently neglects this duty should expect a call from that officer. Promptness is one of the most necessary habits for a child to form, and regularity of attendance is essential to satisfactory progress. Many a child has failed to receive his promotion in school because of unnecessary absence.

All our schools were in session 36 weeks with the exception of the school at Hare Road. The failure to secure the full school year in this school was due to the unusual severity of the winter. With an ordinary winter there will be no difficulty in running this school for a full 36 weeks year.

In accordance with the new school law, medical inspection of the pupils was made during the spring term of last year. Inspection was made by a registered nurse.

Of 200 pupils examined, 116 were found to have

defective teeth, 25 had diseased tonsils, and 16 had adenoids. In addition to these, some cases of defective vision were found; but in most of these cases the defect was already known to the parents and measures had been taken to correct the defect by use of glasses. Wherever serious defects were discovered, the parents were notified by the nurse. I am reliably informed that a considerable number of cases of throat trouble, brought to light by this inspection, have since received surgical treatment.

The presence of diseased tonsils or adenoids affects the general health and mental powers of the child, and is oftentimes the prime cause of backwardness in their studies among school children.

One defect in our organization is that we have no means of following up in the homes the cases which need special attention. In places where a school nurse is employed, it is an important part of her work to follow up cases of this kind in the homes, making it clear to parents just what the trouble is with the child and how it can be remedied. When a child is absent from school by reason of illness, it becomes the duty of the school nurse to visit the home and investigate, giving advice and assistance as needed, and making sure that the child returns to school promptly as soon as it is safe for him to do so, and not before. This contributes to better and more regular attendance; for in many cases of illness, where a physician is not called in, parents are liable to keep the child out of school longer than is necessary, or, in some few instances, to allow him to return to school too soon.

Our resources do not permit us to employ a school nurse, unassisted, and we are unable to do this import-

ant work. I wish that we might be able to do in Milton what is being done in several other communities,—that is, to unite with some other organization or organizations in the employment of a nurse a part of whose time would regularly be devoted to the service of our schools.

This winter an experiment is being tried out at the Milton Mills schools, which seems to be giving excellent results. In this school there are a number of pupils who are obliged to bring their dinners to the school. For several weeks now at least one hot dish has been prepared daily at the school to be added to the cold dinner brought from home. This is prepared and served under the supervision of one of the teachers, and the small expense incurred is shared by the pupils participating. In this way dinner is made a thing of greater enjoyment, and it is reasonable to conclude that the children's physical condition is improved.

In conclusion I wish to express my thanks to all members of the School Board for the help which they have given me; and to any citizens who by kindly, helpful words spoken to superintendent, teachers, or pupils, have contributed to the success of our schools.

Respectfully submitted

FRED W. DUDLEY,

Superintendent of Schools
